

Maintenance Package for a Standard VPK260 Machine

Dear customer,

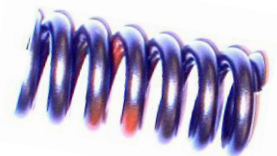

An essential determinant for a long operating life and a high productivity of your ROVEMA VPK260 machine is a constant supply with high-quality and original ROVEMA spare- and wear parts.

Therefore we have compiled a special VPK maintenance package. We highly recommend the stockage of these parts, so you will have direct access to the required parts when necessary.

By being able to immediately exchange particular spare- and wear parts, you won't have to risk unplanned downtimes and loss of production.

The maintenance package offers you:

- a machine-specific selection of parts
- avoidance of unplanned downtimes
- safeguarding of production by a preventive replacement of parts
- a prolonged operating life of your machine
- 10% price advantage compared to individual order

Technical Customer Information
